**Cold as cold – Hot as hot**

# Artekno Thermo Box Collection – for Transport

## The Artekno Group of companies

Artekno Oy, Artekno-Pur Oy, Artekno-Eps Oy and Artekno-Metalli Oy form a company group that is specialized in processing plastics and solving industrial production problems. The Artekno Group of companies plans and manufactures polyurethane, reinforced plastic and cellular plastic products and tools for the various needs of industry and commerce. Artekno also has the representation of Alcan packaging systems in Finland.

Artekno is the oldest Finnish company that manufactures cellular plastic products. Artekno continuously develops its activities in order to be able to plan and manufacture

functional and economical solutions to clients' packaging and transportation problems. Being familiar with clients' production procedure Artekno is able to find the best solution to every problem. Modern production lines and module systems help to make individual packaging and transportation solutions both to small and large series. Good, long-term relationships and continuous co-operation with our raw material suppliers are of the first importance to a successful production development, too. Artekno is a Finnish company that uses EPP (expanded polypropylene) in its production. All Artekno's raw materials of cellular plastic are environmentally friendly and recyclable.

## 12053 EPP-Thermo 25 liter 1/2 GN

- outside dimensions c. 400 x 320 x 345 mm
- inside dimensions c. 345 x 265 x 285 mm
- wall thickness 25 mm
- weight c.1 kg
- metal handles and closing strap
- can be used with cold gel pack

## 12025 EPP-Thermo 25 liter 1/2 GN

- same dimensions as in Item no. 12053
- carrying and closing strap
- can be used with cold gel pack

## Accessories for products 12053 and 12025

- 12039 middle deck (useful with cold gel pack)
- 15000 cold gel pack –1 °C for cold transport
- 15001 cold gel pack –23 °C for freeze transport
- 12046 lifting plate (a safe way to handle hot 1/2 GN-trays)

## 12000 EPP-Thermo 40 liter 1/1 GN

- outside dimensions c. 600 x 400 x 300 mm
- inside dimensions c. 535 x 335 x 230 mm
- wall thickness 30 mm
- weight c. 2,2 kg
- metal handles and closing strap
- can be used with cold gel pack

## Accessories for product 12000

- 12023 middle deck (useful with cold gel pack)
- 15002 cold gel pack –1 °C for cold transport
- 15003 cold gel pack –23 °C for freeze transport
- 12046 lifting plate (a safe way to handle hot 1/1 GN-trays)

# rtation and Insulation

## 12004 EPP-Thermo 65 liter

- outside dimensions c. 600 x 500 x 400 mm
- inside dimensions c. 500 x 400 x 320 mm
- wall thickness 40 mm
- weight c. 3.6 kg
- metal handles and closing strap
- can be used with cold gel pack

## Accessories for product 12004

- 12024 middle deck (useful with cold gel pack)
- 15004 cold gel pack -1 °C for cold transport
